

Tender Opportunity July 2017

Background – Sparlonz Ltd design solutions in vacuum formed components and assemblies, mouldings, sheet extrusion and thermoforming, and secondary machining of parts. The company operates from a 54,000 square foot manufacturing operation is located in Redditch, West Midlands.

A recent energy and business review has identified that the company would benefit from the replacement of the current air compressor with a variable speed compressor and modifications to the current air distribution system.

Opportunity – We wish to appoint a supplier to remove the current air compressor and install a new energy efficient VSD compressor. Prospective Suppliers quotations to include:

- Review of load on current compressors
- Design of appropriately sized compressed air distribution scheme
- Supply and installation of energy efficient VSD compressor
- Supply and installation of associated air drying equipment

Site visits, if required can be arranged with the project manager detailed below

Capability – Suppliers are invited to provide examples of similar installations undertaken in the past three years to demonstrate capability to undertake this project.

Selection Criteria – the contract will be awarded to the most cost-effective tender that meets the requirements of the tender and can be delivered within the planned timescales.

Payment Terms – Payment will be made in stages and agreed as part of the contract discussions. Anticipated payment terms to be included in the prospective suppliers' quotation.

Cost – To be stipulated in the prospective suppliers' quotation

Timescales

- Completed tenders to be received by the companies Project Manager vial email no later than 12:00 noon on the 8th August 2017.
- Project timing plan to be included in prospective suppliers tender. Timing plan to be agreed as part of contract negotiations.
